EXECUTIVE SUMMARY

Engineering executive with 15+ years scaling digital platforms and engineering organisations across retail, financial services, and security-regulated industries. Led teams of up to 20 engineers and shaped delivery strategy for a 120-engineer unit; currently co-leading act digital's Germany business unit and driving its P&L recovery. Specialised in composable and cloud-native transformation, mixed-shore delivery operating models, and balancing growth investment against margin discipline. Translates engineering execution into commercial outcomes for boards and customer executives.

CORE COMPETENCIES

Engineering Organisation Design	Cloud-Native & Composable Architecture	Strategic Partnerships & GTM
Multi-Market Platform Delivery	AI in the Software Lifecycle	Servant Leadership & Coaching
Solution Architecture & Governance	Mixed-Shore Operating Models	Business-Unit P&L & Margin Recovery

PROFESSIONAL EXPERIENCE

act digital
CTO, Director Technology & Delivery · Co-Lead, Germany Business Unit · Regensburg, Germany

Apr 2026 – present

Co-lead the Germany business unit alongside the Sales DE Director, operating with day-to-day executive autonomy under a group-level interim MD. Own the technology delivery organisation and business-unit P&L recovery — restructuring of the delivery organisation from 28 direct reports to a thin skill departments + pods structure with engineering, delivery and consulting teams — within a global digital transformation consulting group of 5,000+ employees across 12 countries.

- Balancing growth investment in a productised mixed-shore data and cloud solution-selling motion (DE-resident architects and PMs combined with PT-based engineering) against operating-cost discipline to reverse a ~€100k/month loss baseline.
- Rebuilding the consultant pipeline (Werkvertrag and ANÜ) across direct enterprise customers and broker partners to restore delivery margin without net-add hiring.
- Establishing a single delivery-management line over the cross-country freelancer pool spanning DE, FR, PT, BE and PL; preparing handover to a Portugal-based Delivery Manager.
- Setting engineering, partner-ecosystem and process-integrity direction; driving TISAX recertification on track in coordination with group leadership.

Respora · Agentic Systems Lab
Founder · Germany

Aug 2025 – present

Concurrent venture researching production-grade agentic software systems and AI-augmented engineering workflows; deliverables target enterprise platform teams adopting LLM-native development practices.

Equal Experts
Director of Technology and Engineering, DACH · Remote · UK / DACH

Oct 2024 – Apr 2026

Established and led Equal Experts' technology presence in the DACH market, positioning the firm in composable commerce and cloud-native transformation.

- Secured the first major enterprise engagement in the region; built a qualified growth pipeline of two further enterprise opportunities through partner and ecosystem development.
- Served as executive technology partner to enterprise stakeholders on platform modernisation, organisational transformation, and engineering operating-model design.
- Owned new-business activities end-to-end — prospecting, bid response, engagement set-up, account management — bridging board sponsors and delivery teams across markets.
- Curated experience-led advisory content and thought-leadership positioning for the DACH market.

intive

Mar 2017 – Sep 2024

Software Engineer → CTO Solution Consultant · Munich / Regensburg, Germany

Seven-year arc through engineering and solution-consulting leadership at a 2,000-person digital product consultancy.

- **CTO Solution Consultant** (2023–2024): Defined delivery-centre strategy for a 120-engineer German unit; led a permanent team of 5 consultants; aligned operating model, architecture standards and governance practices across enterprise transformation programmes.
- **Principal Solution Consultant** (2022–2023): Delivered 5 enterprise programmes; drove revenue growth through executive-level solution design; signed 6 strategic MACH and composable commerce partnership agreements; represented intive on partner technology councils.
- **Senior Solution Architect** (2019–2021): Led up to 20 engineers across multi-market retail transformation programmes; owned architectural governance for commerce platforms deployed in 30+ countries (adidas GMR, Deichmann, Intersport, Esprit).
- **Senior Software Engineer** (2017–2019, intive_kupferwerk): Architected large-scale digital retail applications across international markets; evolved engineering patterns and delivery standards.

Kayos

Apr 2015 – Feb 2026

Founder & acting CEO · Germany

Self-directed technology venture combining hands-on engineering with commercial leadership across client engagements; vehicle for product side-work and stakeholder ownership outside employer engagements.

SIGNATURE ENGAGEMENTS

Composable Commerce Accelerator · intive · 2024

Reusable MACH-based accelerator built to meet a fashion retailer's high-availability requirements; reduced delivery risk and shortened enterprise sales-cycle time. Served as production foundation for two follow-on client projects. algolia.com/developers/code-exchange/intive-mars-accelerator

UK Challenger Bank — MarTech Migration · intive · 2023–2024

Post-acquisition migration for a bank serving 1.4 million active users. Replaced decentralised data infrastructure with a centralised warehouse and composable multi-vendor marketing automation, enabling a 360° customer view and scalable analytics.

adidas GMR · intive · 2019–2020

Customer-facing Bluetooth product delivered in cooperation with Google ATAP and EA Sports. Coordinated cross-company engineering and supported roll-out across 25 countries; assumed product-ownership responsibilities and represented the client in third-party technology discussions.

Deichmann — Mobile Shopping · intive · 2019–2021

Global multi-language retail application supporting roll-out across 30+ countries; aligned mobile architecture with existing Hybris infrastructure and legacy commerce APIs.

EDUCATION

Bachelor of Science, Business Administration & Computer Science — Fachhochschule Bielefeld · 2015–2017

Bachelor of Science, Computer Science: Secure & Mobile Systems — Hochschule Trier · 2011–2014

CERTIFICATIONS

Associate Functional Architect — commercetools · 2022

Dynamic Yield Personalisation Expert (Technical & Business) — Dynamic Yield · 2022

Professional Scrum Master I — Scrum.org · 2017

Specialist for application development of software systems — Hochschule Trier · 2014

LANGUAGES

German — Native proficiency · English — Full professional proficiency
